

# Standard Autoinjector Manufacturing System

With ATS SuperTrak CONVEYANCE™ and Illuminate™ Software

## Key Benefits

- Pre-engineered for **lower design costs** and **faster delivery**
- Suitable for any common **three-piece autoinjector** (additional part assembly options available)
- Capable of handling **external drive units**
- Accommodates **both round and cut flange syringes** (full vision inspection option)
- Various **component loading options** available from manual to fully automated
- **Optimized compact floor space** design
- **Standardized documentation** package
- **Low maintenance** and **minimum power/air usage**

## Key Facts

- Scalable Output Rate: 20-120 ppm
- MOEE  $\geq$  95%
- Reject Rate  $\leq$  1%
- Cleanroom Class.: ISO 8
- Footprint: 8m x 5m (for 120 ppm)
- Manufacturing Intelligence: Illuminate Base Module (OEE Monitoring)
